

Connect | Enlighten | Empower

Dear Womeneur,

Thank you for joining us on our special day and a bigger thank you for your continued support.

When I launched Womeneur April 28, 2015, I knew I wanted to give back by sharing my ten plus years of entrepreneurial knowledge and help women stay motivated, because I personally know that being an entrepreneur is no joke and takes lots of gut and pure will.

Fast forward to today, I had NO idea the Womeneur community would grow as much as it did. I am very grateful and deeply humbled for all your support. Without you, there'd be no us, so thank you. And a bigger thanks to our kick-ass web developer, team members and everyone who has partnered and collaborated with us.

I kept you in mind every step of the way when redesigning this website. Every valuable social media comment, every Instagram DM, every email received and all your wonderful testimonials were taken into account.

I have SO much in store for you! My goal is to create a global collective and make Womeneur become the one-stop resource for you to best launch, grow, sustain and scale your business. Be sure to stick around because we're just getting started!

Two of the best things I did this year were:

1. Create an **Advisory Board** of kick-ass power women who recognize and appreciate my vision for Womeneur enough to lend their valuable time to help me grow it - and sharing key information with you along the way
2. **Collaborate with Preferred Partners.** These are nationwide small business owners in varying industries bringing you their expertise by way of a plethora of services, digital guides, merchandise, package/bundles and consultations.

Operating a small business goes way beyond a website, a newsletter and social media. The goal behind the plethora of our Services and Womeneur Academy offerings is to provide you with the necessary tools and resources to understand and effectively oversee or operate every facet of your business. Understand that contracts are essential, regardless whether the value is \$5 or \$500; you should have a basic idea of how your money works; understand how to read your website traffic and so much more.

Please hang out on the website for a few minutes and check out all our amazing new features - described below pages:
